CE-KONFORME FÜLLSTANDMARKIERUNG

Innovation - Fine-Line-Lasertechnologie

Präziser geht es nicht - unsere Lasertechnologie für Ihre CE-konforme Füllmarkierung.

Wir haben uns auf die CE-konforme Eichung von Trinkgläsern und Umfüllbehältnissen spezialisiert.

Standardisierte, interne Prozesse mit eigens entwickelten Hightech-Maschinen versetzen uns in die Lage, Eichungen auch an Trinkgläsern vorzunehmen, die sonst nicht zu realisieren sind.

Jedes einzelne Glas wird auf dessen Inhalt geprüft und mit einer CE-konformen Füllmarkierung versehen. Die Eichmarkierung wird mittels Fine-Line-Lasertechnologie gesetzt, die es uns erlaubt, Strichstärken von 0,01mm zu realisieren!

Eine überlegende Dekorationstechnik, die lebensmittelecht, kratz- und stoßfest sowie mikrorissfrei ist und die Härtung spezieller Gläser nicht beschädigt. Spülmaschinenfest!

Flexibilität, Präzision und Schnelligkeit zeichnen uns aus. Bereits ab kleinen Mengen können wir unser Verfahren anwenden.
